

LION ALCOBLOW BREATHALYSER

Detection System

Rapid contactless breathalyser for high-volume industrial and law enforcement

Protective Safety

EN 60601-1-2

Why choose our LION ALCOBLOW BREATHALYSER?

- ✓ Contactless design eliminates mouthpieces for zero consumables and hygiene
- ✓ Provide result in 2 second accurately
- ✓ Active and passive modes for voluntary or ambient air sampling
- ✓ Precision Lion fuel cell sensor prevents inaccurate false positive readings
- ✓ Simple two-button operation with LED traffic light result system
- ✓ Four AA batteries support at least five thousand breath tests
- ✓ Lightweight and compact design ensures easy professional portability
